ESTABLISHED 1965

ABOUT THE GROUP ◆

Six Decades of *Disciplined Execution*

Founded in 1965, Hofburg Group has evolved from its roots in European construction and industrial engineering into a diversified international group operating at the intersection of real infrastructure, digital transformation and institutional capital markets.

Across six decades, the Group has delivered over 243 projects spanning logistics, automotive, energy, urban development, food automation and blockchain-based financial infrastructure — always guided by a commitment to tangible value, regulatory discipline and long-term institutional partnerships.

“Building What Endures”

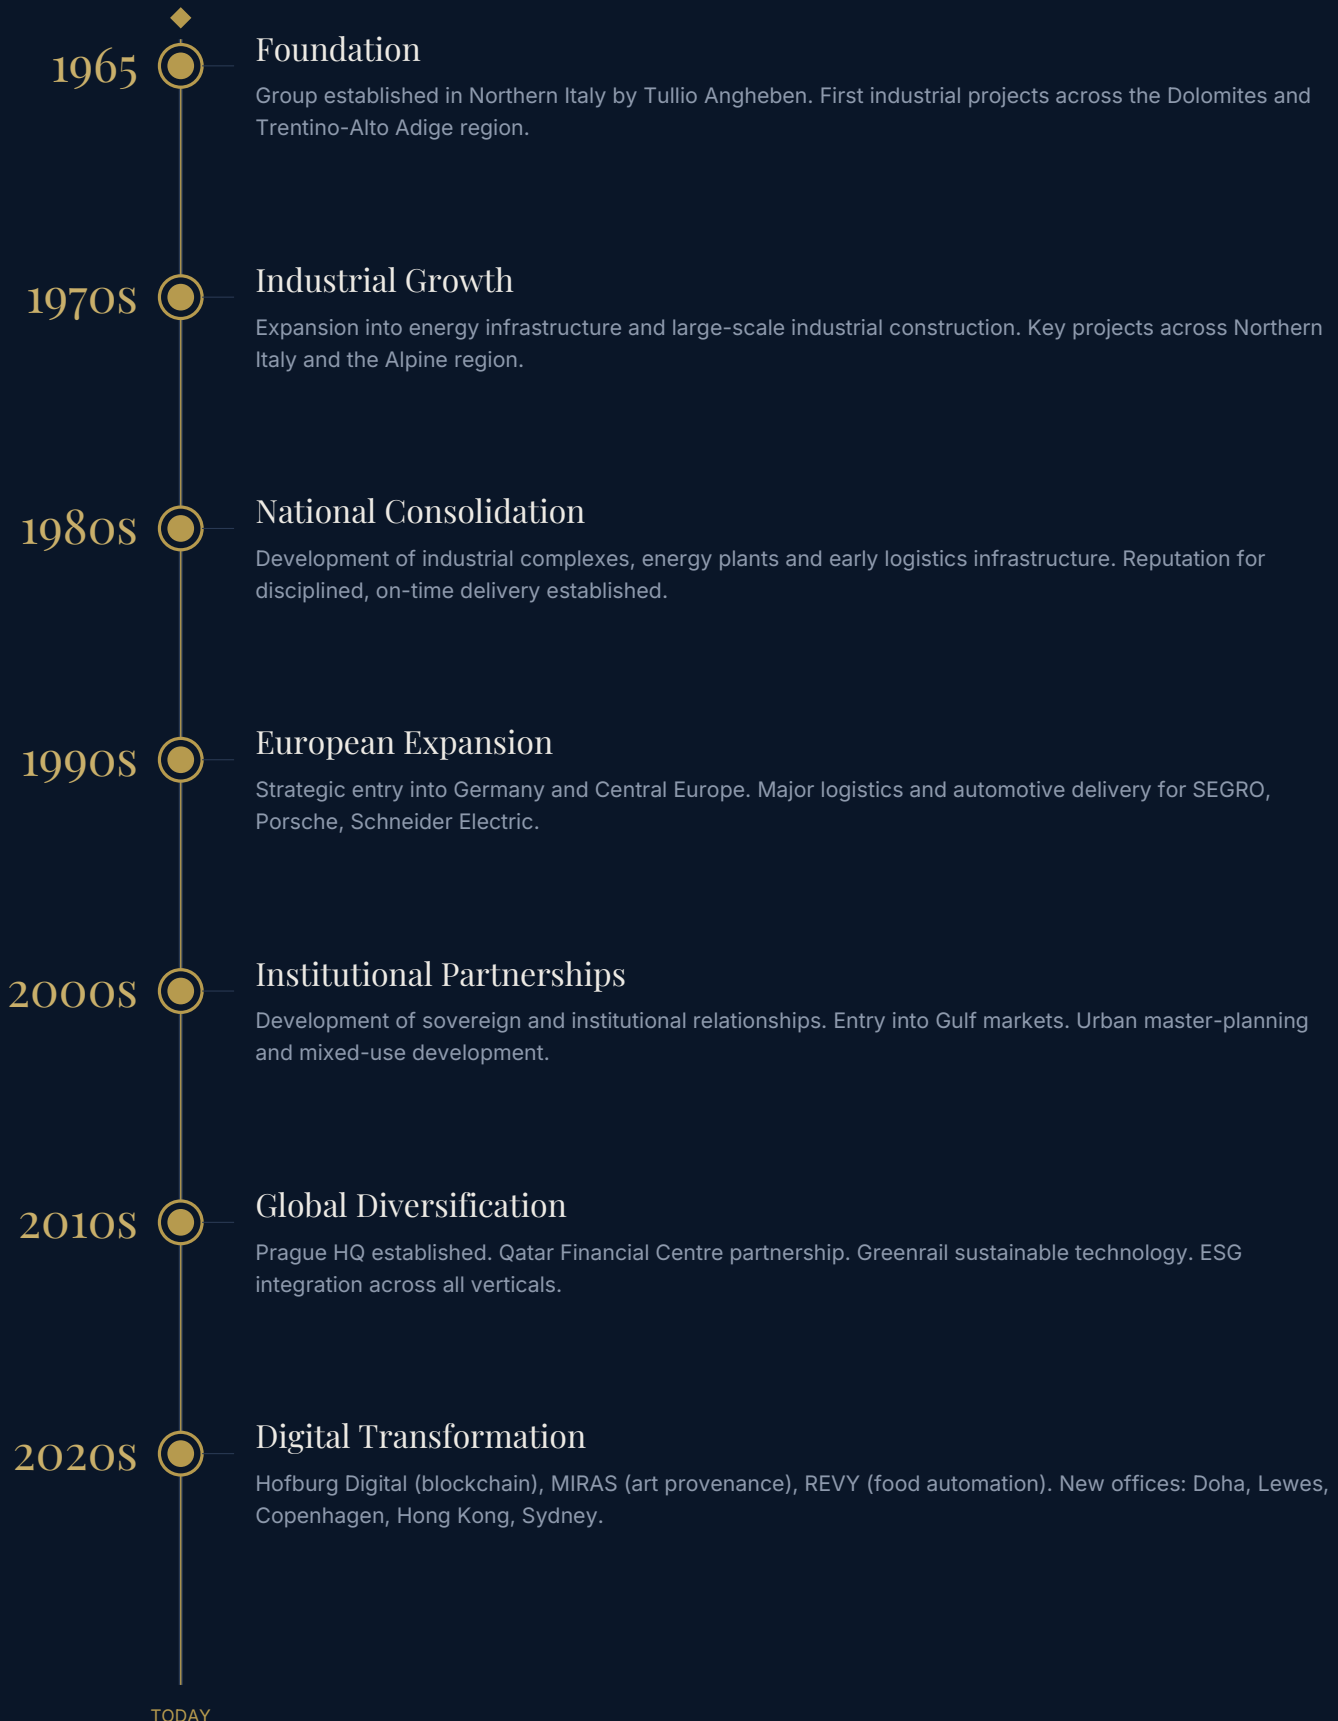

The Group operates with a single mandate: to create long-term, tangible value through infrastructure development, technological innovation and institutional partnerships — across every geography and sector in which it is present.

- ◆ **Infrastructure & Logistics**
SEGRO, Porsche, Schneider Electric, Frankfurt Airport
- ◆ **Digital Assets & Blockchain**
Hofburg Digital — MiCA-regulated tokenization platform
- ◆ **Food Automation & Patents**
REVV — autonomous robotic production systems
- ◆ **Art & Provenance Technology**
MIRAS — Visual DNA™ patent-pending registry

OUR JOURNEY ◆

Six Decades of *Heritage*

From Northern Italy to a global group — a timeline of disciplined growth.

Infrastructure & *Innovation*

01 Industrial & Logistics

Large-scale industrial complexes, logistics hubs and warehouse infrastructure. Primary delivery partner for multinational corporations including SEGRO, Porsche and Schneider Electric.

02 Institutional Capital

Structuring and deploying institutional-grade capital across regulated real estate, infrastructure and digital asset frameworks. Partnerships with sovereign entities and tier-1 financial institutions.

03 Digital Infrastructure

Proprietary blockchain architecture for real-world asset tokenization, fractional ownership and DeFi-grade fund management. MiCA-aligned regulatory frameworks.

04 Urban Development

Master-planned mixed-use districts integrating residential, commercial and cultural infrastructure. Emphasis on sustainability and long-term community value.

05 Energy & Sustainability

Biogas facilities, renewable energy plants and sustainable rail technology. ESG-integrated delivery methodology across all infrastructure verticals.

06 Food Automation

Patented autonomous food preparation systems. REVY robotic pizza technology and industrial-scale food automation machinery with international patent portfolio.

◆

*“Real value is built over time,
through disciplined execution,
strategic vision, and a deep respect
for tangible assets.”*

GROUP COMPANIES ◆

The Hofburg *Ecosystem*

Specialized entities operating across digital infrastructure, art provenance, food technology and business services — unified by the Group's foundational principles.

BLOCKCHAIN & TOKENIZATION

Hofburg Digital

hofburgdigital.com

Proprietary Layer 2 blockchain infrastructure for real-world asset tokenization and regulated fund structuring.

ART & PROVENANCE

MIRAS

miras.art

Digital registry binding physical artworks to their provenance. Patent-pending Visual DNA™ technology.

FOOD AUTOMATION & PATENTS

Hofburg Food Tech

hofburg-ft.com

International patents in food automation. Flagship: REVY — autonomous robotic pizza production system.

BUSINESS SERVICES

Alkora Plus

alkoraplus.com

Integrated business services platform delivering strategic advisory and corporate structuring across Central Europe and the Gulf.

FAMILY HOLDING

MarGin International

margin-intl.com

Family holding overseeing new venture development, IP management and international market scaling.

GOVERNANCE & COMPLIANCE ◆

Regulatory *Framework*

◆ **EU AML/KYC Compliance**

Full adherence to EU Anti-Money Laundering directives and Know Your Customer protocols across all European operations and subsidiaries.

◆ **MiCA Regulation (EU)**

Aligned with the Markets in Crypto-Assets regulation for transparent digital asset operations within the European Union framework.

◆ **GDPR Data Protection**

Comprehensive data protection and privacy compliance across all digital platforms, client data management and cross-border data transfers.

◆ **Czech National Bank Oversight**

Operations in the Czech Republic are subject to the supervision framework of the Czech National Bank for regulated financial activities.

◆ **QFCA Compliance (Qatar)**

Doha operations structured under the Qatar Financial Centre Authority, enabling regulated cross-border financial services across the Gulf region.
